## TIMG's S3 Compatible Online Data Archive Solution

### TIMG's online data archive solution is cost-effective, S3 storage in New Zealand

In this digital world, data is growing exponentially. Due to data retention policies organisations are required to keep data for up to 10 years or even indefinitely.

#### Questions which organisations must answer are:

- How do you retain data cost effectively?
- Are you able to retrieve data on time and is this easily accessible?
- Is it cost effective?
- Who do I trust to protect my data?

#### TIMG proudly delivers S3 storage right here in New Zealand, for only \$0.02GB/month\*!

This is supported by enterprise grade hardware, N+2 redundancy and a promise that your data is stored locally in New Zealand - giving you 24/7 access. TIMG have actively protected data for 40 years and continue to assist our customers with their requirements to provide with a cost effective solution to the highest standard.

THE INFORMATION MANAGEMENT GROUP

### TIMG S3 Storage

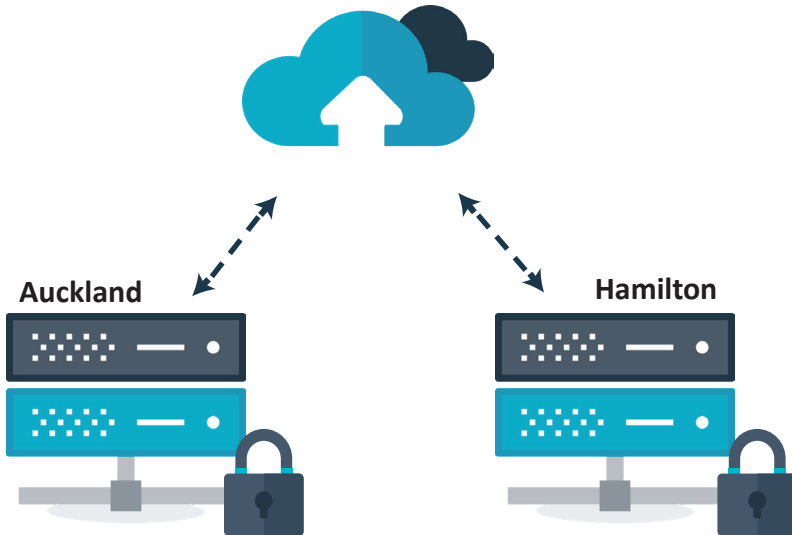

### TIMG single-site storage

- TIMG standard S3 storage
- Data stored in one site - Auckland
- N+2 storage redundancy
- N+1 network redundancy
- \$0.02 per GB (min 500GB per month)
- No upload charges
- \$0.08 per GB downloaded or connectivity option available

### Benefits of TIMG's S3 data storage;

1. New Zealand-based and Freightways owned data centre. Your data is locally hosted, so data sovereignty is taken care off.
2. \*Flat rate of \$0.02 cents per GB – most competitive in the market (minimum 500GB per month).
3. Pay only for what you need.
4. No upfront cost.
5. No upload charges.
6. Access through industry standard S3 API for multi application compatibility.
7. Multi-site options available.
8. Seeding for initial data available.
9. Highly encrypted in 256-bit during transit and in storage, compliant to NZISM security standard (dependent on your application).

### TIMG S3 Storage

### TIMG multi-site storage

- TIMG's high available S3 storage
- Data stored in two sites - Auckland and Hamilton
- N+2 storage redundancy at each site
- N+1 network redundancy
- \$0.05 per GB
- No upload charges
- No download charges
