ENTERPRISE-LEVEL POWER AT YOUR FINGERTIPS

The capabilities that PaperLite offers used to be out of reach for most organisations because of the cost and technical complexity. But with PaperLite, TIMG changed the game. PaperLite now affordably delivers the powerful capabilities that organisations of all sizes need to improve the way they interact with content and each other.

All content is saved and indexed directly into your secure space in the TIMG cloud, with offsite backup and the additional option for electronic offsite backup. We also offer BackOnsite, an optional secondary site for disaster recovery and business continuity.
